

LIGHT BULB DISPOSAL

- Incandescent light bulbs can be disposed of in a resident's normal trash.

- The new LED and halogen bulbs can also be disposed of in residential trash. Residents can recycle these bulbs at the Newton Sanitary Landfill free of charge.

- All fluorescent bulbs, no matter what shape, size, or length need to be recycled. Residents can recycle these bulbs at the Newton Sanitary Landfill free of charge. Check with the Landfill office for the designated recycling location of fluorescent bulbs.
